

Dr. Alireza Lotfi Kian

Doctorate in clinical laboratory sciences (DCLS), Iran Medical Sciences University, 1991

Institutional positions :

1. Corresponding Members in the Task Force on Ethics (TF-E) IFCC
2. Member of the Communication & Publications Committee APFCB
3. Member of the medical Ethic committee-Medical Council of Iran
4. Board of directors member of IACLD, Iran
5. Head of Education and Research Department in IACLD, Iran
6. Head of Education in Accreditation of IACLD, Iran
7. Member of the General Assembly of the Iranian Medical System

Positions in National and International Scientific Societies:

- 1- Board of directors member of International and National Congress on Quality Improvement in Clinical Laboratories in Iran, 2021 to 2024
- 2- Education and Research Department in the Iranian Association of Clinical Laboratory Doctorate (IACLD), Iran
- 3- Head of the Education in Accreditation body of IACLD, Iran
- 4- Ideator in Lab Science in Iran

Publication:

Microbiologic Evaluation of Blepharitis in Iraq-Iran War Chemical Casualties, Journal of Ophthalmology Bina Scientific, 16 issue 196-201, 2011.

Organization of meetings:

1. co-Scientific Chair in the 15th International and 21 th National Congress on Quality Improvement in Clinical Laboratories in Iran, 2024.
2. International Secretary International and National Congress on Quality Improvement in Clinical Laboratories in Iran, 2021 to 2023.
3. Education courses in IACLD, Iran.

Education activities:

- 1- Designing a guideline for the indications of peripheral blood smear preparation in diagnostic hematology.
- 2- Application design for drug and non-drug interactions in laboratory tests.
- 3- Editor of laboratory sciences books

I have been creating innovative ideas and producing content in the fields of laboratory medicine for many years. As a laboratory science specialist, I produce content in the following 10 topics:

- 1-Clinical considerations in laboratory tests.
- 2-Paraclinical point of the day.
- 3-Notes of Perinatology
- 4-One question, one article.
- 5-A practical comment.
- 6-A guideline, a few points.
- 7-Medical Lab QC/QA/QM.
- 8-Minimials for the medical laboratory.
- 9-Discrepancies in laboratory results.
- 10-A lab report, a note, a comment.
