

CURRICULUM VITAE

I- Personal information

Name: Aziz

Surname: Eghbali

Date of birth: 11/08/1972

Place of birth: Ardabil, Iran

Marital status: Married, having 1 children

Nationality: Iranian

Home address:

No 54, Vaezi alley, Karimi street, Andarzgoo Blvd. , Qeytarie , Tehran, Iran

Work address:

Iran University of medical sciences Aliasghar medical education hospital .Tehran, Iran.

affiliated to Iran University of medical sciences: +98-21-22222045

Phone number: +98-914-1527157

Email: aziz_eghbali@yahoo.com

II- Educational backgrounds:

2005-2009: fellowship of pediatric hematology and oncology , Mofid medical center, shahid beheshti University of medical sciences and health services, qualified in pediatric hematology and oncology national board examination in2009.

2001-2004: Resident of pediatric , Mofid medical center, shahid beheshti University of medical sciences and health services, qualified in pediatric national board examination in2004.

1990-1997: Student of medicine, Tabriz University of medical sciences and health services.

III-Employment & professional experiences:

2019-present :Associate professor , pediatric department, School of medicine, Iran University of medical sciences (IUMS).

2009-2019: Assistant professor, pediatric department, School of medicine, Arak University of medical sciences & health services (AUMSHS).

2009-present: member of the Iranian pediatric hematology and oncology society.

IV-Honors & qualifications:

-Awarded as the first degree honor in pediatric hematology and oncology national board examination in2009.

-Good in English reading & writing, good in listening & speaking.

-Qualified in working with computer (Microsoft office included).

V-Administrative Position:

2019-present :Educational assistant of pediatric hematology and oncology department in Aliasghar hospital IUMS.

2009-2019: Head of Amirkabir hospital pediatric Hematology - oncology ward ,
Arak medical university

2012-present: Head of Amirkabir hospital`s hemovigilance program, Arak medical
university

2011-present: Board of Director, breast milk feeding society , Amirkabir
hospital, Arak medical university.

2010-present: Director of students exams . Amirkabir hospital, Arak
medical university.

2011-presnt: consultant professor of Arak medical university.

VI-Theses supervised:

- 1- Evaluation of correlation between serum ferritin and T2* MRI in major thalassemia
- 2-Evaluation of prognostic significance of bone marrow megakaryocyte counts in patients with idiopathic thrombocytopenic purpura
- 3- Evaluation of correlation between serum ferritin and Echo cardiographic findings in major thalassemia
- 4- Effect of nebulized L-epinephrine on the treatment of croup

- 5-Detection of immunophenotype and chromosomal translocation of leukemia in children
- 6- Epidemiologic Evaluation of Pediatric Malignancies and risk factors in Arak
- 7-Evaluation of the efficacy of chewing gum in preventing of oral mucositis in children receiving chemotherapy
- 8-Evaluation of the role of alendronate in prevention of steroid-induced osteopenia in ALL and NHL in children
- 9-Contemplation of the 3rd and 4th Verses of Al-Qiyamat Surah to Compare the Fingerprints of Normal Population with Hemophilia Carriers
- 10-Evaluation of ADHD in children with malignancy.
- 11-Evaluation of correlation between anemia and febrile convulsion in children.
- 12- Effect of oral Transamin on Prophylaxis of bleeding events in Vonwilbrand disease.
- 13- Use of Propranolol in treatment of children with Hemangioma; a crossover clinical study.
- 14-Risk factors of psychotic problems in major Thalassemia.
- 15- Evaluation of pulmonary function tests in major and intermedia Thalassemia in Amirkabir hospital.
- 16- Etiologic evaluation of Cytopenia in children referring to Amirkabir hospital.
- 17-Study on the lower limb pains etiology in children.
- 18- Study on the safety and efficacy of combined therapy of Exjade and desferal in decreasing of ferritin in major Thalassemia patients.
- 19-Study on the relation between fragmented QRS in ECG and cardiac iron load in major Thalassemia.
- 20.Study on the relation between cardiac iron load measured by T2* MRI and ventricular repolarisation parameters in major Thalassemia patients without any clinical sign.
- 21.Study on Pantoprazole's effect on cardiac and hepatic iron overload ,measurable by T2* MRI, in major Thalassemia and Thalassemia Intermedia patients referring to Amirkabir hospital in Arak.

22. Evaluation of 5-year event free survival and relevant factors in Leukemic patients in Khansari hospital of Arak,Iran/
23. Evaluation of the risk factors of Leukemia in children of Markazi Province.
24. The comparison of Cefexime and Azithromycin's effect on children's dysentery.
25. Evaluation of Amlodipine's effect on iron overload in major Thalassemia patients.
26. Evaluation of correlation between cardiac and hepatic iron load , measurable by T2* MRI , with serum level of vit D3 in major Thalassemia patients.
- 27.Study on myopathy and peripheral neuropathy in Major Thalassemia and Thalassemia Intermedia patients.
28. Evaluation of the correlation between ferritin serum level,Troponin I, cardiac T2* MRI and ecocardiographic findings in major Thalassemia patients.
- 29.Study on the prevalence and predisposing factors towards Red blood cell Alloimmunization in major Thalassemia patients in Arak.
- 30.Study on the epidemiological and clirical status and also the side effects of the patients with inherited bleeding disorders in Markazi Province.
31. Study on the relation between MPV and ITP prognosis in children suffering from ITP in Amirkabir hospital of Arak.
- 32.An epidemiological study on the Immune Thrombocytopenic Purpura (ITP) in patients referring to Amirkabir Hospital in Arak from April 2009 to April 2016.
- 33.Study on the relation between CBC markers(total blood cell count) and nephrotic syndrome prognosis.
34. Evaluation of the predisposing factors and the prevalence of different kinds of malignancies in patients referring to Amirkabir hospital.

35. Study on the Glucose 6-phosphate dehydrogenase (G6DP) deficiency patients' condition , who have referred to Amirkabir hospital from 2011 to 2014.

36. Evaluation of different risk factors of arterial and venous thrombosis in children admitted to Amirkabir hospital from 2011 to 2015.

37. Evaluation of the ventricular repolarisation steadiness in major Thalassemia patients.

38. Evaluation of the P wave for early diagnosis of atrial fibrillation in children with major Thalassemia.

39. Study on the effect of Helicobacter Pylori eradication on the platelet count in children with acute Immune Thrombocytopenic Purpura.

40. Evaluation of the clinical status and prognosis of the children suffering from solid tumors in Amirkabir hospital of Arak from 2008 to 2015.

41. Comparisomal study on the vit D3 serum level in children with acute Leukemia, before and after induction therapy from 2015 to 2016.

1-Evaluation of the prophylactic effect of tranexamic acid in von willebrand disease and glanzman thrombasthenia

2-Evaluation of risk factors that affect the behavior of parents and children with thalassemia

3-The comparison of Vitamin D status and Bone Mineral density between children cured of AcuteLymphoblastic Leukemia and control group referred to Amir-Kabir Hospital in Arak.

4-Evaluation of the effect of oral livergol on liver enzymes in patients with major andintermediate thalassemia

5-study the effect of oral calcium and vitamin D3 supplementation with bone mineral density in children with acute lymphoblastic leukemia

6-Effect of Olanzapine in the Prophylaxis of Nausea and Vomiting Induced by Chemotherapy in Children with Malignancy

- 7-Determination of frequency and risk factors of chemotherapy drug extravasation in children admitted to Amir Kabir hospital in Arak in 2017
- 8-Effects of Aprepitant on chemotherapy-induced nausea and vomiting in children.
- 9-The comparison between prophylactic effect of filgrastim and pegfilgrastim in reducing neutropenia caused by chemotherapy of solid tumors in children admitted to Amirkabir hospital in Arak.
- 10-Epidemiology of Immune Thrombocytopenic Purpura in patients in Amirkabir Children Hospital from 2011 to 2016
- 11-Study of incidence and risk factors of clostridium defficile infection in diarrhea of pediatric patients with cancer in Amir kabir hospital
- 12-Evaluation of late renal complications in children with Wilms tumor referring to amirkabir hospital in arak
- 13-The study of clinical manifestation and treatment outcomes of children with brain tumors referring to Amir Kabir Hospital in Arak between 1388 to 1397
- 14-Correlation between Serum Ferritin Level and Evaluable Cardiac Function with Doppler Echocardiography study among the Pediatric Patients with Thalassemia Major.
- 15-Detection of immunophenotyping and chromosomal translocation of leukemia in children
- 16-Assessment of heart and liver T2*MRI and serum ferritine in evaluation of iron overload in thalassemia major patients in amirkabir hospital, Arak, During 1389-1390
- 17-Epidemiologic Evaluation of Pediatric Malignancies and risk factors in Arak Amirkabir hospital
- 18-Evaluation of the frequency and prognosis of testicular relapse among the children with leukemia that gone to Amirkabir Hospital in Arak since 2009 to 2017
- 19-Evaluation of the frequency and prognosis of the children with lymphoma that have gone to Amirkabir Hospital in Arak since 2009 to 2017
- 20-Comparison of the effect of Intravenous immunoglobulin and Rhophylac in treatment of Idiopathic (Autoimmune) Thrombocytopenic Purpura
- 21- Evaluation of alendronate in prevention of steroid- induced osteopenia in childhood ALL and NHL
- 22-Effect of Aerosolized L_ Epinephrin in theTreatment of acute Croup .
- 23-Comparison between outpatient treatment and hospitalization in early induction phase in patients suffering from acute lymphoblastic leukemia refferd to ARAK AMIRKABIR HOSPITA
- 24-Assessment of Propranolol efficacy on regression of pediatric haemangioma.

- 25-The frequency of complication of portal catheter in children with malignancy referring to Amirkabir hospital in 1398
- 26-Exploring the frequency and its Risk Factors of Proteinuria in Patients with beta-thalassemia Major and Intermedia Referring to Arak Amirkabir Hospital in 1398
- 27-Epidemiologic and clinical and relevant disease sequels assessment of patients with bleeding disorders in Arak
- 28-Prevalence of Alloimmunization against RBC Antigen and risk factors in thalassemia major patients of Arak in2015
- 29-The Correlation between Serum Ferritin, Serum Troponin T, cardiac T2* MRI and Echocardiographic Findings in Patients with Thalassemia Major
- 30-Evaluation of myopathy and peripheral neuropathy in patients with β -thalassemia major and intermedia
- 30-Study on etiology of lower limb pain in children referred to Arak Amirkabir hospital
- 31-Etiology of cytopenia in children refer to Amirkabir hospital Arak Iran Mar2013-Mar 2015
- 32-Study on pulmonary function in thalassemia major and intermedia patients refferd to Arak AMIRKABIR hospital by two-phase spirometry.
- 33-comparative assessment of serum level of vitamin D3 in children with acute leukemia before and after remission induction therapy and control group from 2015-2017
- 34-evaluation of clinical state and prognosis of childhood solid tumors in Amir Kabir hospital;Arak
- 35-Effect of Helicobacter pylori eradication on platelet count in children with acute ITP.
- 36-Evaluation of P-Wave Measurements for the early detection of atrial arrhythmias in patients with thalassemia major
- 37-The state of the ventricular depolarization in patients with thalassemia major uniformity.
- 38-Etiologic survey in arterial and venus thrombosis in children reffering to Amirkabir hospital from 2011 till 2016
- 39-Study of the protective effects of Cassia Senna on β thalassemia major by investigating of the catalase, superoxide dismutase, hemoglobin structure and derivatives, carbonyl and malondialdehyde groups
- 40-A thesis presented for the degree of Bachlor of Medicine and Bachlor of Surgery
- 41-Evaluation of intravenous Vitamin B6 administration in chemotherapy induced nausea and vomiting in children.

42-Evaluate relationship between the annual average level of ferritin in patients with major thalassemia with diastolic dysfunction by echocardiography TDI.

43-Evaluation of efficacy and safety of exjade and desferal combination therapy on serum ferritin in patients with thalassemia major.

43-Clinical and prognostic assessment of childhood leukemia in Arak amrkabir hospital 2010-2016

44-Evaluate relationship between the Iron overload by T2*CMRI in patients with major thalassemia with left ventricular diastolic dysfunction by echocardiography TDI

45-Expression evaluation of microRNAs targeting FBXW7 and PTEN mRNAs in T-ALL patients

46-Investigate ADHD and anxiety in children with malignancy and anxiety in their parents with children without malignancy referring to .

47-The relationship between iron overload in cardiac T2* technique and ventricular parameters in patients without clinical symptoms of thalassemia major Rypoularyzasion

48-Assessment of the relationship between fragmented QRS in electrocardiogram and cardiac iron overload in thalassemia patient under recurrent blood transfusion.

49-Evaluation of intravenous pamidronate & oral alendronate on BMD in patients with major and intermedia thalassemia in Amirkabir hospital.

50-Evaluation of the effect of cefexime in comparison with azithromycin in treatment of shigellosis.

51-The frequency of Paranasal sinus infection in children with malignancy and non-focal fever who referring to Arak Amir Kabir hospital

52-Study of the Frequency of oral and dental problems in children with malignancy referred to Amir Kabir Arak Hospital

53- Kidney-protective Effect of Magnesium Supplementation in Carboplatin-containing Chemotherapy for Pediatric Cancer in Amirkabir Hospital, Arak

54- A Comparative Study of the Effect of Iron Supplements in Ferrous Sulfate and Ferrous Gluconate on Prophylaxis of Iron Deficiency in 6-24 Months Children Referring to Amirkabir Hospital in Arak

55-Evaluation of the iron overload frequency and relation with its risk factors in survivors of childhood leukemia referring to arak amirkabir hospital in 1397-1398

56-To study the Frequency and Risk Factors of Oral Mucositis in Children with Malignancy Admitted to Arak Amir Kabir Hospital in 1396-1397

57-Assessment of correlation between pulmonary hypertension and serum ferritin and cardiac T2*MRI in major and intermediate B-thalassemia

- 58-Evaluation of the role of vitamin D supplements on pulmonary hypertension in patients with thalassemia major and intermedia
- 59-Assessment of humoral immunity to hepatitis B, MMR and DTP vaccination in childhood leukemia
- 60-the value of Neutrophil to Lymphocyte Ratio and Platelet to Lymphocyte Ratio for detecting Neonatal Sepsis
- 61-A Comparative Study on the efficacy and safety of oral Sirolimus and Cyclosporine in children with Chronic Immune Thrombocytopenic Purpura
- 62-The therapeutic effect of neurobion in major Beta thalassemia patients in Amir Kabir Hospital, Arak Iran in 2017
- 63-Correlation between MPV and prognosis of immune thrombocytopenic purpura in children suffered from ITP in amirkabir hospital arak
- 64-Association between anemia with simple febrileconvulsion and epilepsy in admitted childpatients at Arak Amirkabir Hospital: A case-control study
- 65- clinical manifestations and complications in patients with von Willebrand disease in AmirKabir Hospital in 1397
- 66-Evaluation of the effect of cefexime in comparison with azithromycin in treatment of shigellosis.
- 67-Evaluation of the effect of folate supplement on RBC indices of children suffering from minor thalassemia.
- 68-The study of the effects of amlodipine addition to combination therapy of Deferiprone and Deferoxamine to reduce cardiac iron overload measurable with T2* MRI in thalassemic patients
- 69-Investigating the factors involved in choosing the type of chelator used in patients with major and intermediate thalassemia and the factors involved in its selection in patients referring to Amirkabir hospital in Arak in 1397
- 70-Evaluation of the frequency of supplementation and its relation with hemoglobin levels in patients with major and intermediate thalassemia referring to Amirkabir hospital in Arak in 1397
- 71- Evaluation of the relationship between atrial and ventricular depolarization and repolarization with CT2* MRI in beta-thalassemia major patients
- 72-Evaluation of the effect of oral prolifeon liver function in patients with major and intermediate thalassemia
- 73-Evaluation of glucose hemostasis markers in thalassemia major and intermedia referring to Amir Kabir Hospital

74-The relationship between CBC markers (complete blood cell count) and the prognosis of nephrotic syndrome

75-Investigating the main complaint of parents and children with malignancy referring to Amir Kabir Hospital in Arak from 2013 to the end of 2019

76-

VII- Research Projects (ongoing and finished)

- 1- Parental occupation in childhood malignancy
- 2- Use of propranolol in treatment of children with hemangioma; a crossover clinical study
- 3- effect of oral transamin on prophylaxis of bleeding events in Vonwilbrand disease
- 4- Evaluation of prognostic significance of bone marrow megakaryocyte counts in patients with idiopathic thrombocytopenic purpura
- 5- Evaluation of the role of alendronate in prevention of steroid-induced osteopenia in ALL and NHL in children
- 6- Evaluation of the efficacy of chewing gum in preventing of oral mucositis in children receiving chemotherapy
- 7- Effect of nebulized L-epinephrine on the treatment of croup
- 8- Study of the riskfactors related with helicobacterpylori infections in children with peptic ulcer disease
- 9- " L-Asparginase effect with 6000U/m2 on lipid profile in children with acute lymphoblastic leukemi
- 10- Comparison of efficacy between IVIG and Rhophylac in treatment of ITP
- 11-Evaluation of pharmacokinetics indices in hemophilia A severe recombinant factor of Saman Eighth Company (SaFacTo)
- 12-The effect of chemotherapy induced hyperglycemia on prognosis of pediatric acute lymphoblastic leukemia(ALL) referring to Arak Amir Kabir Hospital,
- 13-Evaluation of the effect of oral livergol on liver enzymes in patients with acutelymphoblastic leukemia (ALL) in maintenance phase.
- 14-Evaluation of efficacy and safety of dabigatran (pradaxa) in pediatric

thromboembolism;A pilot study

15-To study the relation between social capital dimensions on burnout in female nurses of Arak Amirkabir hospital in 1396

16-effect of oral lactocare in chemotherapy induced nausea and vomiting anddiarrhea in pediatric in amir kabir hospital of arak

17-Evaluation of survival and risk factors in children with leukemia

18-Evaluation of pantaprazol effect on cardiac &hepatic iron overload assessed by T2*MRI in patient with major and intermediate talasemia in amir kabir hospital of arak.

19-Correlation between cardiac and hepatic T2*MRI and serum level of vitamin D3 in thalassemia major

20-Effect of Amlodipine on reduce of iron overload in major thalassemia patients

21-Assessment of Propranolol efficacy on regression of pediatric haemangioma

22-Evaluation of the prophylactic effect of tranexamic acid in von willebrand disease and glanzman thrombasthenia

23-Evaluation of the Association between Parental Occupational Exposure and Children Cancers

24-Evaluation of the effect of cefexime in comparison with azithromycin in treatment of shigellosis.

25-Evaluation of leukemia (ALL, AML) risk factors in under 14 years old in MarkaziProvince, 2012-13.

26-Comparison of the effect of Intravenous immunoglobulin and Rhophylac intreatment of Idiopathic (Autoimmune) Thrombocytopenic Purpura

27-A 5-year survival rate of leukemia and factors affecting it in patients who werereferred to Khansari Hospital, Arak City, 2006-2010.

28-Exploring of parents experiences who have a child with blood cancer: A qualitative research.

29-Prevalence and risk factors of fungal infections in children with chemotherapyinduced febrile neutropenia in Amir Kabir Hospital .
